

Conversation Starters

Gentle questions for culture, belonging and home.

Choose one question at a calm moment. Let the conversation be curious rather than corrective.

Identity and belonging

What makes you feel proud of who you are?

Where do you feel most at home?

What do you wish people understood about your family?

Culture and difference

Which traditions do you enjoy?

What feels different between home and school?

What would you like to learn about our family story?

Connection after tension

What did you need from me in that moment?

What can we try differently next time?

How can I help you feel heard?

Use this privately, or bring it into a Raising Between Worlds circle for shared reflection.
